

ReachDisplay™ ReachRetargeting™

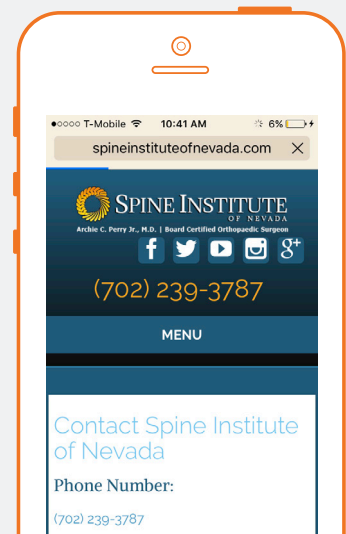

Ninety eight percent of first-time visitors to websites don't take action.¹ Luckily, website visitors who are retargeted with banner ads while visiting other websites are 70% more likely to return and convert on your website.² Stay in front of those high-intent consumers and bring them back to your site to close the business with ReachRetargeting.

Potential customer visits your website and leaves.

User sees your ad online a few days later and remembers she still needs help so she clicks on your ad.

Consumer likes what she's seen about you and calls the number on your website to learn more.

Boost Website Leads with Retargeting

Capture Lost Leads

Target people who've recently been to your website and left without converting with powerful banner ads encouraging them to come back to your site.

Provide a Special Offer

As your prospect gets closer to a purchase decision, your display ads can promote an exclusive offer to help you stand out from the competition and close the deal.

Reach New, Qualified Audiences

Find new prospects who exhibit similar characteristics and online behavior to your recent website visitors. These "lookalike" audiences help you reach a broader network of consumers likely to be in need of your service.

Lift Results from Your Marketing

Retargeting works best with other digital advertising campaigns (like paid search and social media advertising) to bring visitors back to your site to convert.

Stay Top of Mind Throughout the Buyer Journey

Keep your brand continuously in front of your prospects as they gather information and spend time online. Your business will be fresh in their minds at decision time due to their heightened awareness of your brand.

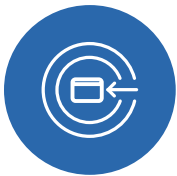

ReachDisplay™ ReachRetargeting™

Boost Website Leads with Retargeting.

Site Retargeting

Re-engage with prospects who've recently visited your website to remind them of your brand and service.

Site Retargeting with Lookalikes

Target website visitors plus consumers with similar characteristics and online behavior to your recent visitors.

Search & Site Retargeting

Reach audiences who have visited your website and users who've searched for keywords relevant to your business.
