Live Chat

Get a taste of what it feels like to improve your connection with your website visitors. Plus, drive leads with Live Chat. It's one of the best kept secrets in marketing.

Call Connect

Both our Live Agent and Automated Agents can connect prospects and leads to you via phone directly from a chat—enabling you to continue the sales process with results that matter.

Text to Chat⁵

Our Live Agents can also answer incoming texts from the website when visitors are on mobile (except HIPAA). To the visitor, it appears like a regular SMS text exchange. To the agent, it's treated like a web chat. To you, it's another trackable lead with a chat transcript in the system for you to follow-up on.

Instant Transcripts & Leads

You will be notified by email or text message automatically after a chat conversation with a full transcript of the chat and the contact info for the prospect. Follow up quickly for your best chance to get the deal.

Automated Chat Agents

Visitors interact with an Automated Agent that is focused on your business goals—lead capturing, 24 hours a day, 7 days a week. The Automated Agent intakes messages, gathers visitors' contact info, and enables them to reach you by phone - instantly with Call Connect.

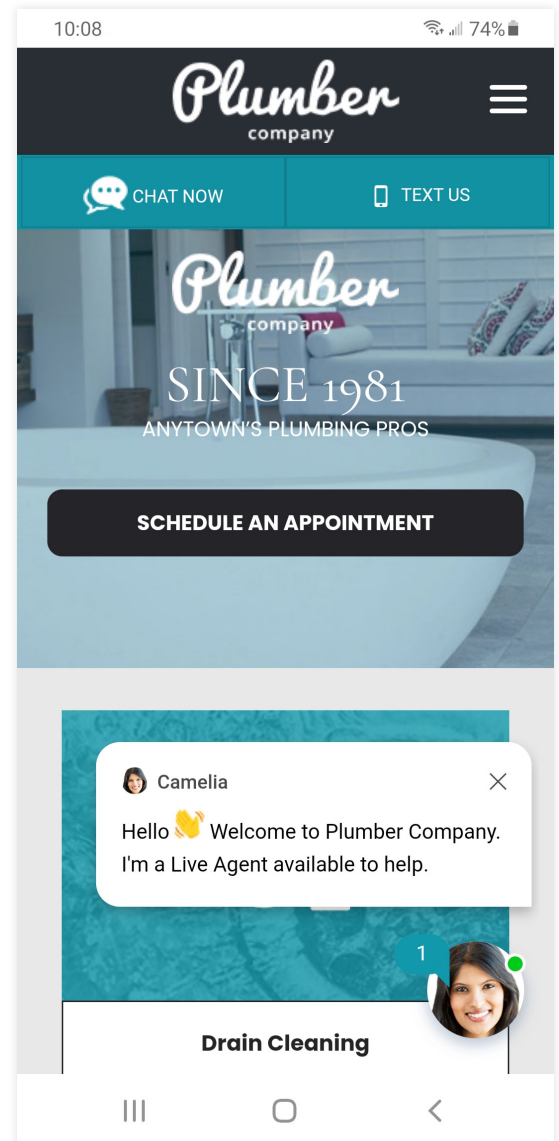

HIPAA Compliance

If you're subject to HIPAA or manage sensitive customer data, we have a secure solution for you. You'll receive lead notifications that provide a link to log in to our secure portal in order to view the lead.⁷

Reporting and Marketing Automation

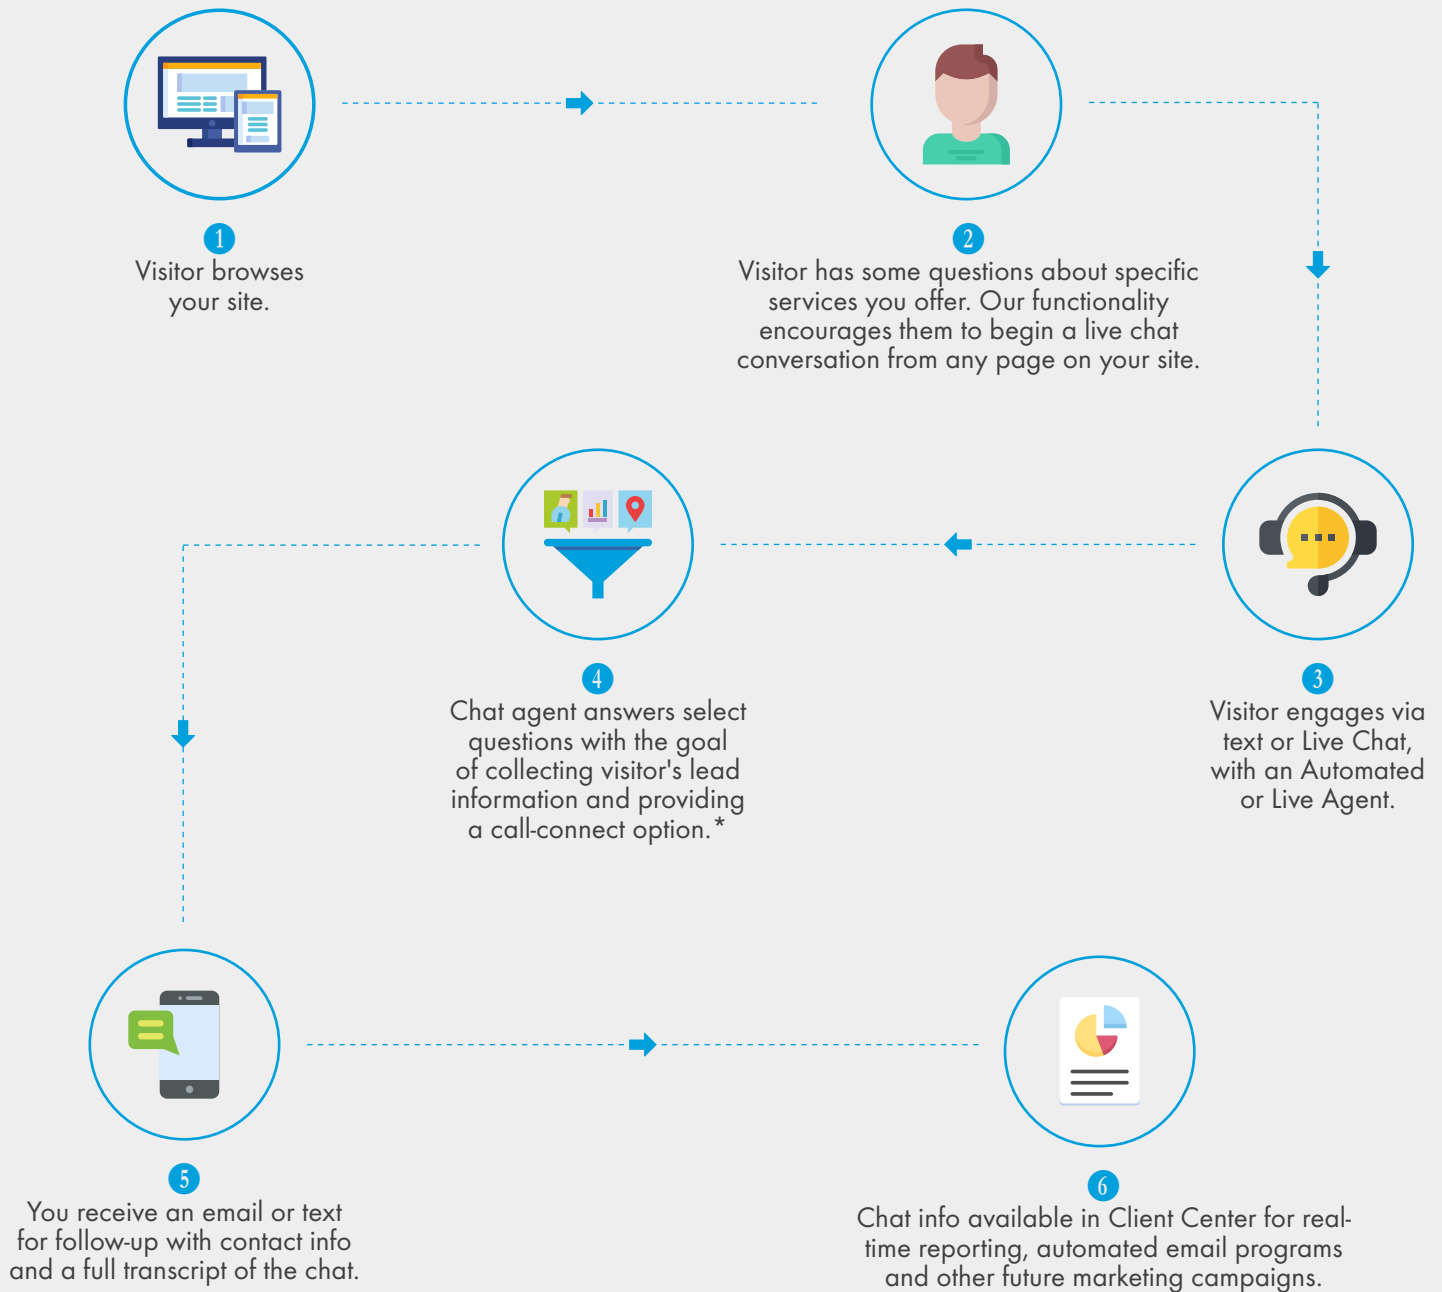

Live Chat works in conjunction with Client Center with Lead Engagement⁸, our unique lead management technology. Track all of your chat leads alongside calls and website form fills in one place, see analytics, and connect with them through automated email and text marketing campaigns, helping turn them into customers.
