Gain Confidence in Your Campaign Results

With the ReachLocal app, see reports from all your campaigns in a single place. You can see results from your media campaigns at a glance, filter by date range, and drill down into individual campaigns. You’ll see metrics like campaign spend, impressions, clicks, and number of leads.

Dig Deeper into Your Conversion Details

In addition to your reports, the ReachLocal app breaks down results by lead type, such as calls, web events, emails, and chats. See how many leads your advertising drove over time, and view details of each individual lead, such as their name, date and time they contacted you.

Uncover Insights About Your Leads

Not only do you get a list of leads from your advertising, but you can see exactly which source brought them to your business. Plus, you can play back new calls and see completed form fills and chat transcripts, which can provide valuable insights about your leads.

Respond Faster to Grow ROI

With real-time lead notifications on your smartphone, you’ll know as soon as someone contacts your business. Plus, you can add notes, classify leads, and call or reply via email directly from the app, so you can respond quickly and turn new leads into sales.
